

NuVet Plus Nutritional Supplement

We recommend this great nutritional supplement when wanting the best for your puppy/dog. We believe NuVet Plus adds vitality and vibrancy to your puppy/dog and can only enhance your puppy/dog's lifestyle. This product is veterinarian recommended and has proven itself to be very beneficial to the puppy/dog's coat and well being. Please read below the information we have gathered to explain the supplement and what it entails.

In nature, dogs consume foods that are whole, raw and fresh, while domestic animals generally have a diet of processed foods only. NuVet Plus was developed to target the nutritional gap between what nature provides and what is available in commercial foods. Formulated with all-natural, human-edible-quality whole foods and food concentrates, NuVet Plus reintroduces unprocessed, nutrient-rich foods into your dog's diet.

NuVet Plus includes important nutrients like amino acids, enzymes, fiber, phytonutrients, and vitamins and minerals. NuVet "Hips & Joints" product includes glucosamine and chondroitin for extra joint support for older dogs and those with arthritis or joint stiffness.

For years, veterinarians and pet owners have added NuVet Plus Canine Formula to commercial foods to promote:

- General Health & Well-Being
- Better Digestion
- Healthy Skin & Coat
- Increased Energy
- Quicker Recovery After Surgery or Injury
- Less Shedding
- Reduced Allergies
- Less Scratching & Itching
- Reduced Odor
- Less Joint Stiffness and Pain
