

## Royal Ridge Corgis Health Guarantee

We guarantee our puppies to be in good health to the best of our knowledge. All puppies will have a vet health certificate prior to pickup and/or shipping (should time allow within appointment made) from our home. All shots are up to date and puppies will be free from obvious defects at the time of pickup and/or shipment. Puppies may be severely stressed by the change in their environment from time to time. Minor problems such as diarrhea, guardia, coccidiosis, wormy stool, etc., may occur and must be treated immediately and appropriately. These conditions are the responsibility of you, the buyer, and should be properly checked by a veterinarian. Minor health problems that can be cured by medication or surgery are not covered by any guarantee. A replacement puppy will be offered in exchange for a puppy purchased should death or illness occur before pickup and/or delivery. If a replacement puppy is not available one will be offered to you in a future litter.

### Buyers Responsibilities

Have your puppy examined by a licensed veterinarian within 48 hours of delivery or pickup (If you need more time – please let us know in advance to make an amended time with you.) We must be informed immediately of the examination's result by email or by telephone and a copy of the paper work submitted to us via the us postal service. Failure to complete this crucial step will terminate the health guarantee on your puppy. This guarantee will then be null and void. Be sure to provide your puppy with routine preventative care, such as, but not limited to: Annual physical examinations by a licensed veterinarian. Follow veterinarian guidelines for vaccinations and de-worming.

### Health Guarantee

Your puppy is guaranteed until two years of age against fatal and life altering congenital diseases which adversely affect the health of the animal. This includes severe hip dysplasia, which hampers a dog's movement and natural gait and requires surgery to correct; kidney, heart, pancreas, spine, and liver problems of a severe life threatening or altering nature. If the dog dies within this two year time frame, you must pay to have it autopsied to ascertain reason of death. If reason is congenital, we will replace the puppy/dog. All items covered under this guarantee are by replacement only. A puppy/dog showing any serious genetic or congenital defect will be replaced as follows: Animal must show the defect by two years of age. We must be notified of the problem within two (2) business days of the licensed veterinarian's determination and have one (1) report from an unassociated veterinarian stating the same problem. We will then provide a replacement puppy of equivalent value. A puppy with a

defect must be returned to us in good condition, other than the specified problem or euthanasia with our permission at your expense to qualify for a replacement puppy. The replacement puppy will be mutually agreed upon by both parties and will be of comparable quality (healthy). It is understood that the replacement puppy may not be from the exact same parents as the original puppy. This guarantee applies to the original puppy only and is nontransferable to a second party. We will not be held responsible for any medical expenses incurred. You, as the buyer, are fully aware that owning a puppy means trips to the veterinarian and understand that you will be responsible for all payments and appointments. As of the date of delivery and/or pickup, your puppy has received proper vaccinations and has been de-wormed on a strict schedule. You have been informed of the puppy's vaccination and de-worming schedule and are aware of future vaccinations and de-wormings that will be due. This guarantee does not cover *Guardia*, *Coccidia* and *Bordetella*, which can be common in puppies that are shipped/transported. This bacteria can be spread easily through boarding kennels, dog parks, and other public areas where you may take your puppy. *For an additional cost, you may have us vaccinate your puppy against Bordetella helping prevent this infection from occurring.* *Bordetella* is self-limiting and, like the common cold, must run its course. We recommend vaccinating against *Bordetella* twice a year. There are certain disorders that may be caused by environmental factors, such as but not limited to: allergies, thyroid dysfunction, demodectic mange, tumors, growths, scabies, mite related illness are not covered by this guarantee. Any physical problem which is and/or could be the result of injury is not covered under this guarantee. There is no guarantee that you will be able to show and/or breed your puppy regardless of show and/or breeding potential.

“Due to the varying kinds of food and different environmental conditions the puppies come in contact with; and the fact that all puppies have immune systems that take time to mature, the terms of this guarantee will not be honored unless they are given NuVet Plus® immune system builder, as directed by the manufacturer, for the entire guarantee period. Failure to do so will render this guarantee null and void except where prohibited by law. We also highly recommend you continue to give your pet NuVet Plus beyond the guarantee period to promote optimal health for a lifetime.”

## About NuVet Plus

NuVet Plus is America's premier pet immune system support supplement incorporating a precise formula of vitamins, minerals, enzymes, herbs and antioxidants that perform synergistically to bring together all of the vital ingredients required to maintain optimal health. NuVet Plus is made in the USA

using natural, human grade ingredients that are formulated in an FDA registered pharmaceutical laboratory.

Veterinarian recommended, NuVet Plus was designed for dogs at every life stage; from supporting your puppy’s maturing immune system to helping to protect against issues later in life.

For your convenience you may order by phone by calling 800-474-7044, using order code 89096 or online at [www.nuvet.com/89096](http://www.nuvet.com/89096). NuVet products are not sold in stores.
